

INTRODUCING NEW

POWERCORE

TECHNOLOGY

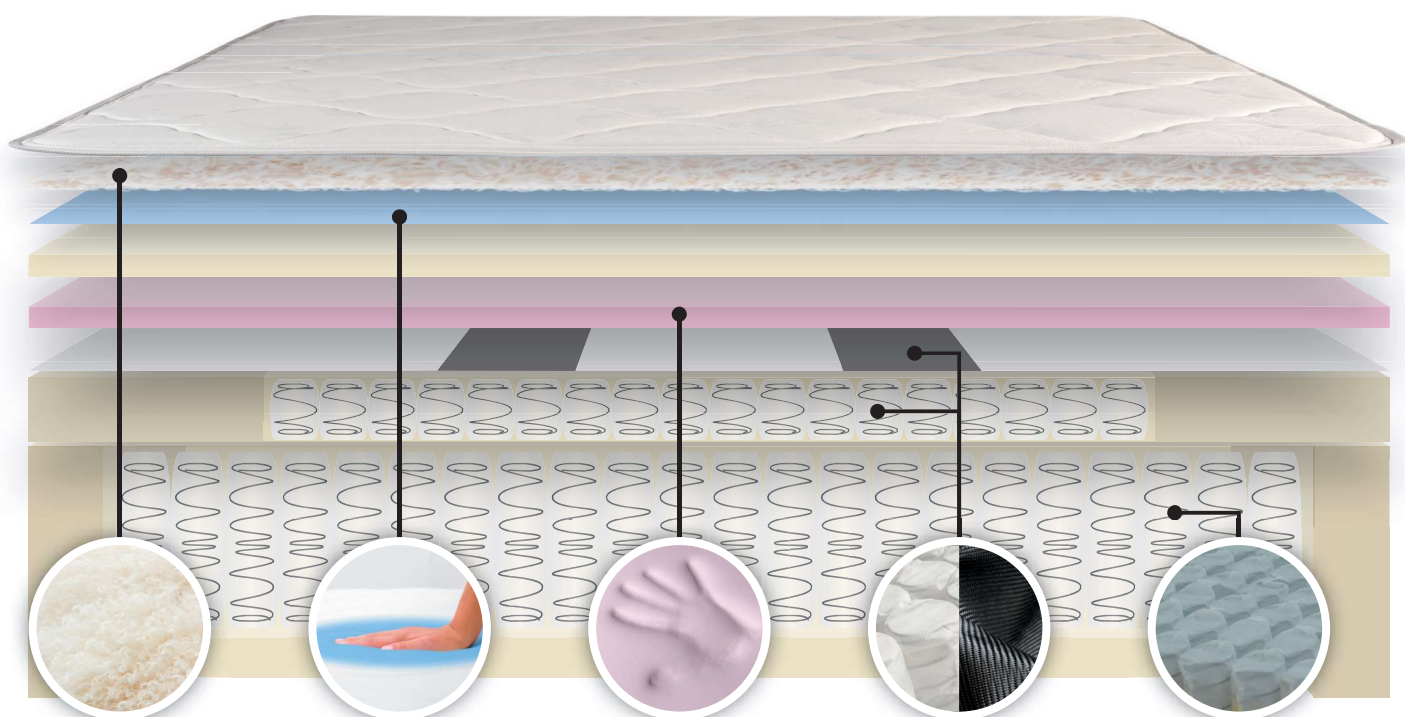

Sleepyhead

MATRIX

ULTRA

MEDIUM

Introducing the latest in Sleepyhead technology, the Matrix Ultra Medium introduces our new Powercore support system. Featuring Kevlar bands within the mattress at critical lumbar regions and a dual pocket spring design, Matrix Ultra provides enhanced postural support and alignment.

FIBRE: WOOL+SILK

naturally luxurious

- Naturally hypoallergenic wool is blended with luxurious silk for an incredibly breathable sleep surface that also helps with the regulation of body temperature.

K lK te

temperature regulating technology

- A water based, breathable foam infusion that absorbs and releases heat energy to help manage temperature while you sleep.

RE:ACTIVE

pressure relief

- Responsive memory foam that contours to your body shape quickly.
- Provides pressure point relief to help reduce tossing and turning.

POWERCORE

- With a central layer of medium mini-pocket springs for enhanced comfort & support.
- Kevlar bands across lower back support regions to help postural support & alignment.

ACTIVESENSE

active coil technology

- A two-stage pocket coil detects and deflects pressure for enhanced comfort and support.
- Minimises partner disturbance and cradles you in the area's you need extra support.

ADDITIONAL FEATURES:

- **Eco-friendly Dreamfoam:** Breathable new generation foam for added support
- **Comfort Edge Support:** Sleep right to the edge of the mattress

Designed and manufactured exclusively for Smiths City.
